We need the link to the data first. Tim Davis is posting now.

Wait til we get that.

>>
>>
>> Team-below is the final statement for tonight. This needs to be:
>>
>> 1. Posted online as an update to the Gold King Mine site
>> 2. Congressional/elected notification
>> 3. Press release to HQ and regions
>> 4. Please post the original data charts I sent to George Hull.
>>
>> PLEASE CONFIRM WITH ME THAT YOU HAVE RECEIVED THIS INFO AND ARE PREPARED TO
FULLFIIL YOUR DUTY.
>>
>> To assess the impacts of the release at the Gold King Mine near Silverton, Colorado, water quality
samples were collected at numerous intervals beginning on Aug. 5, 2015. Samples were taken prior to
the plume's arrival to establish a baseline for water quality comparisons. Each surface water sample was
analyzed for 24 metals, including arsenic, cadmium, lead, and mercury.
>>
>> Analysis now shows that water quality for the Animas River from the Silverton, Colo. area to the
Durango municipal water intake has returned to pre-event water quality levels. These results are based
on validated sampling data collected from Aug. 5 to Aug. 9, 2015.
>>
>> EPA has shared this data with state, local and tribal officials in Colorado to assist them in their
decisions regarding the on-going use of water resources. EPA plans to continue to monitor, analyze and
share data for downstream river segments as it becomes available.
